Gene Goldman new manager of Marshall's SSME Project

Gene Goldman has been named manager of the Space Shuttle Main Engine Project at the Marshall Center. "Gene's variety of experience within the Shuttle program ... makes him uniquely qualified to serve in this important Marshall assignment," said Marshall Center Director David King. Goldman began working in Marshall's Shuttle Projects Systems Integration Office in 1990. In 1994, he moved to the Space Shuttle Main Engine Projects Office -- holding positions of manager, business manager and deputy project manager. He is a 2002 graduate of NASA's SES Candidate Development Program.
